SETTINGS:

Before clicking settings

- a. talk about this being the area where you make changes to fit your style
- b. mention that many we've already viewed many items in other places

Special things to point out in various sections:

Profiles – remember when I said many things we'll discuss later? Close settings and click personal icon

New tab page – disable extension and show native options

Site permissions:

Ads – discuss adding uBlock Origin

Zoom levels – show how they just recall last visit levels

Family safety – things you can do:

1. set screen time limits
2. filter content
3. get activity reports
4. find your family
5. and more

System – don't mess with proxy settings

About Microsoft Edge – place to check for updates
